

**NAD & PRA1 DNA TESTING**  
**\*\*\*\*\*BOTH TESTS NOW AVAILABLE TOGETHER\*\*\*\*\***

Many of you have asked when you would be able to test your dogs for NAD and PRA1 at the same laboratory. We are pleased to announce that you can now do just that! And you have multiple choices of laboratories in several countries. For your convenience, we have compiled a list of those laboratories that offer both NAD and PRA1 DNA testing for Papillons and Phalènes. We have also included their regular price for the test. Most of the laboratories offer various discounts (seasonal discounts, flash sales, combination discounts, club discounts, health clinics, litter discounts, etc.), which you can learn about from their websites or by contacting the laboratory directly. All of these laboratories will provide DNA test kits and prepaid return shipping with your order, unless otherwise noted. Here is an alphabetical list:

- **Biofocus Germany**: Offers both PRA1 and NAD DNA tests for €45,22 each or €83,30 for both tests, if ordered together (includes VAT and breeder discount). Website: [biofocus.de](http://biofocus.de)
- **EVG Slovenia**: Offers both PRA1 and NAD DNA tests for €48,80 each (10% discount for more than 3 tests). The “Combi” price also includes vWD1 and is €131,76 for the 3 tests or €105,41 with breeders discount (proof of being in a breed club). Website: [eurovetgene.com](http://eurovetgene.com)
- **Genomia Czech**: Offers both PRA1 and NAD DNA tests for €52,00 each or the “Combi” price for PRA1/NAD is €90,00. Website: [genomia.cz](http://genomia.cz)
- **GenSol USA**: Offers both PRA1 and NAD DNA tests for \$USD40.00 each. Shipping costs are additional. Website: [gensoldx.com](http://gensoldx.com)
- **LabGenVet Canada (Laboratory of Veterinary Genetics, University of Montreal)**: Offers both PRA1 and NAD DNA tests for \$CAD72.00 each or a “Combi” price of \$CAD134.00 (\$CAD67.00 each) for both tests. DNA test kits are not provided and shipping costs are additional. Website: [labgenvet.ca](http://labgenvet.ca)
- **Laboklin UK**: Offers both PRA1 and NAD DNA tests for £48.00 each (includes 20% VAT). Shipping costs are additional. Website: [laboklin.co.uk](http://laboklin.co.uk)
- **Laboklin Germany**: Offers both PRA1 and NAD DNA tests for €59.50 each (includes 19% VAT). Shipping costs outside of Germany are additional. Website: [laboklin.de](http://laboklin.de)
- **OptiGen USA**: Offers both PRA1 and NAD DNA tests for \$USD75.00 each or the “Combi” price of \$USD130.00 (\$USD65.00 each) for both tests. 5% discount for online orders. Website: [optigen.com](http://optigen.com)
- **Orivet Australia**: Offers both PRA1 and NAD DNA tests for RRP price of \$AUS75.00 plus GST for each test or \$AUS67.50 plus GST for each test for Registered Users (10% discount). Website: [orivet.com](http://orivet.com)
- **Paw Print Genetics USA**: Offers both PRA1 and NAD DNA tests for \$USD80.00 each or the “Combi” price of \$USD150.00 (\$USD75.00 each) for both tests. Website: [pawprintgenetics.com](http://pawprintgenetics.com)
- **VetGen USA**: Offers both PRA1 and NAD DNA tests for \$USD65.00 each for each dog or \$USD58.50 each, if ordered together for the same dog. Website: [vetgen.com](http://vetgen.com)

These prices are valid as of April 2018. We are not responsible for changes in prices or offers. We encourage you to check if prices have changed and for any available discounts before you place your order. Information collected by Stephanie Koeniger & Alla Jenkins.
